WHAT IS A MEASURED BUILDING SURVEY?

It is an accurate and compliant measured drawing of your property, showcasing all the structural elements & architectural features of the building, including:

- Floor plans
- Roof plan
- Elevations
- Sections
- Ceiling heights
- Floor levels
- Window openings

AVAILABLE IN AUTOCAD (.DWG), REVIT (.RVT)
OR PDF FORMATS.

EXPERT SURVEYORS & EQUIPMENT

We use specialist equipment, such as, the Leica Geosystem total station and the Trimble X7 360 scanner, for their quality and efficiency.

As-Built 2D Drawings

We produce 2D floor plans, elevations and sections.

3D Points Cloud

We can model your property as a 3D BIM model.

360 Degree Imagery

Need a virtual site tour? You won't even need to visit site again with our 360-degree images captured by our scanning equipment. Saving you time and resource!
